Subject: Start of Daylight Saving Time

START OF DAYLIGHT SAVING TIME

Daylight Saving Time (DST) begins in the United States on second Sunday in March. Remember to move your clocks forward 1 hour on Sunday, March 9, 2008 at 2:00 a.m.

Not all places observe Daylight Saving Time such as Hawaii, American Samoa, Guam, Puerto Rico, and the U.S. Virgin Islands. Also, only the Eastern Time Zone portion of the State of Indiana, and the state of Arizona (which does not observe DST) observe DST.

A Safety Reminder:

Many fire departments encourage people to change the battery in the smoke detector when they change their clocks. It can be so easy to forget otherwise. A working smoke detector more than doubles a person's chance of surviving a fire. More than 90 percent of homes in the United States have smoke detectors, but one-third have dead or missing batteries.

For Your Convenience

9 volt batteries are available in the print room for \$1.50 each. (Courtney Dyer and his team would like to remind you that exact change is appreciated.)
